

18TH ANNUAL

FLECKVIEH BULL & FEMALE SALE

Saturday December 3, 2022 | 3 PM On the farm | Valleyview, AB

WELCOME TO OUR 18TH ANNUAL SALE!

If you are new to our sale, we encourage you to give us a call so we can discuss what our genetics have to offer your program. We are so thankful to have an amazing group of repeat buyers. It humbles us to see our bulls and females working hard to meet your requirements. One of the reasons our customers keep coming back is that our bulls and females poses great longevity. By feeding high forage diets and allowing more time, our cattle develop at a more natural rate. This allows them to pass on their genetics for many years to come.

This Fall's calf run has been good for everyone. With the high price of feed the demand for performance cattle has never been higher. It's more efficient for a hard-working cow to add the pounds to a calf, rather than pay extra for feed. We have genetics that will allow you to take advantage of the new industry demands for feed efficiency.

Our new herdsire Wolfes Geronimo is following into his sire's footsteps is a top performance bull. Wolfes Geronimo surpassed Brink Geronimo and is now

currently the #1 sire in the CSA Fullblood Herdbook for weaning weight. This exciting herdsire came out of my brother Shane's program (Wolfe's Fleckvieh, Sundre AB).

This year there's another great group of bulls in the pen. In addition to Wolfes Geronimo, we have three other new and exciting herdsires; Ozark, Gage, and Bell. Ozark is co-owned with Silver Lake Farms of Cartwright Manitoba. Thus far, his progeny have added do-ability as well as good dispositions. Gage has shown to add size and body depth, and Bell sons should add body length and frame. Our tried and true bulls Elevation, Custer, Electric Avenue, Sully, and Kitimat continue to offer us the type of cattle we desire.

To continue to offer our customers with cattle that will help them meet the demands of the industry, each year we carcass ultrasound all our sale bulls and heifers, as well as our own replacement heifers. The results can be found on the home page of our website within "Interactive Supplement Sheet". In addition to the carcass scan results, this document will also contain links to CSA listings, videos, scrotal measurements, diluter status, and weights. Information is added as it becomes available.

Our heifer pen is strong this year as well. We selected ten Full Fleckvieh heifers to keep open over the Summer. Breed them your own way to integrate them into a Winter calving program. Our thirteen bred heifers on offer were all exposed to our Kitimat grandson, Hugh, for Spring calving. Hugh is proving to be a reliable heifer bull, working in two herds for the past couple years. Old Kitimat is still enjoying his semi-retirement at 8 years of age. He bred 10 of our own replacements again this year.

We would like to remind potential buyers of a few things:

- **Bulls can stay on the farm through the Winter free of charge.**
- **Bulls are delivered for free (within Western Canada) in the Spring.**
- **For bull purchases, buyers have the option to pay 50% sale day and the remainder in the Spring upon delivery.**
- **Videos will be accessible approximately one week prior to the sale through a link on our websites home page. Click "Lot Videos" on the right-hand side.**
- **Our sales start time is 3:00PM.**

Once again, a huge thank you to Stefon Beechinor and Mackenzie Stout for photographing all our sale animals. They have always done an awesome job. Thank you to Keltey Whelan Designs for putting our catalogue together and designing an awesome new cover page.

If you have questions regarding our breeding program or this year's offering, call me any time at 780-524-9322. You are welcome to tour through the pens prior to sale day, as well. We hope to see you Saturday December 3rd. Stay for a delicious bowl of Mom's chilli after our 3 o' clock sale.

WOLFE MISS FF552T

- Full Fleckvieh.
- Has excellent feet- this was one of the best attributes of his maternal grandsire Brewster.
- Jubb and his dam were an excellent pair to see on pasture together. His dam is possibly our best Brewster cow. Last year a ¾ brother had the largest ribeye area amongst all the bulls while maintaining a very strong marbling value as well. Expect to see great results from Jubb's scan posted on our website soon.
- Non-diluter.

- Very fancy, thick Ozark daughter.
- Loose made and soggy heifer.
- Lots of depth of body.
- Her dam is also deep and has a really good udder.
- **Exposed June 30 - Sept 12 to CLEAWATER HUGH 26H (1333502)**

- The Avenue cattle display lots of volume and Jeva is no exception.
- She has a strong topline, angular body and an excellent hip.
- Beautiful wavy hair coat.
- Her dams first calf by Kitimat was our 2nd highest selling bull in 2019, going to Lorne and Crystal Brad (see support photo).
- **Exposed June 30 - Sept 12 to CLEAWATER HUGH 26H (1333502)**

- Another Gage daughter with lots of frame to pack the pounds into.
- Tremendous depth and volume with a long spine.
- Out of a Jahari 8154 cow. These cows continue to be top producers, even at an old age.
- **Exposed June 30 - Sept 12 to CLEAWATER HUGH 26H (1333502)**

WOLFE MISS 567T

- Joy is just one of four bred Fullbloods in the sale this year.
- Her sire Sully has turned out to be one of the better heifer bulls we have used. He has worked for Lone Stone Farms and ourselves for five years and we plan to use him again next year.
- Granddam 708Y is still a top producer at 11 years old. We were happy to get a polled Avenue daughter from her this year.
- **Exposed June 30 - Sept 12 to CLEAWATER HUGH 26H (1333502)**

- Very powerful pedigree.
- Not a fancy heifer by any means, but if she produces like her dam you will love having her at home.
- The Custer cattle have proven to add pounds through extra frame, as well as growth.
- **Exposed June 30 - Sept 12 to CLEAWATER HUGH 26H (1333502)**
